## REPUBLICAN TERRITORIAL CONVENTION.

ROOMS OF THE TERRITORIAL REPUBLICAN CENTRAL COMMITTEE.  
 Prescott, Ariz., Feb. 10, 1892.

A convention of the Republican party of Arizona will be held at the city of Phoenix, on Thursday, the 7th day of April, 1892, for the purpose of selecting delegates to the National Republican convention to be held at Minneapolis on the 7th day of June, 1892.

The best of representation will be one delegate from each county, and one delegate for every fifty votes, and one for each fraction of fifty over twenty-five votes cast for Geo. W. Cheney for delegate to congress at the November election in 1892.

The representation of the several counties will, therefore, be as follows:  
 Apache county, 5  
 Cochise, 12  
 Graham, 8  
 Gila, 7  
 Maricopa, 6  
 Mohave, 6  
 Pima, 12  
 Pinal, 12  
 Yavapai, 12  
 Yuma, 4

Total number of delegates, 109.  
 The election of delegates from states and territories, to sit in the National convention of the Republican party, by their votes, the standard bearer of the "Grand Old Party" is selected to lead on to victory. It is one of the most important functions to be discharged and every citizen should be present at the convention of his county to select his delegate.

The chairman of the Territorial Republican central committee desires a full attendance at our territorial convention, and requests that all proxies to the convention be held by members of the convention from the same county they have been selected to represent.

Chairman Territorial Republican Central Committee.  
 By Geo. E. Brown, Secretary.

## AN OUTRAGEOUS CENSORSHIP.

The confiscation of the entire mail edition of the Gazette yesterday by Postmaster Copes is regarded generally as unjustifiable and an undue stretch of authority. Whether the postmaster has any personal grievance toward the proprietors of the Gazette or not, this Republic is not informed. That the action mentioned was unjust and unjustifiable, and a straining which was never intended by the law, is proven by prima facie evidence. The "objectionable" paragraph of three lines was in no sense a lottery advertisement. It was a simple item of news, printed as such, and could not be otherwise construed save on the most elastic stretching of the postal statute, and the most flimsy technicality. The law pertaining to lotteries has been rigidly observed by all the papers of Phoenix, and so far as that goes, throughout the country.

There has been no attempt at any time to violate either the letter or the spirit of the law. But when it comes to admitting the right of unlimited censorship on the part of every 4th class postmaster—it will not be done. Mr. Copes may or may not have been actuated by personal feelings, from the fact that the Gazette is a Democratic organ and he himself is a Republican official. He may or may not have been led into the unusual action he took through imperfect knowledge of the laws, or the advice of an incompetent deputy. In either event his ground is untenable and if maintained will lead to considerable unpleasantness. More than that the Republic believes that Postmaster Copes has acted in a way to call forth the censure of the department—if not worse. Neither the people nor the press of Arizona, uphold such conduct no matter whether it comes from a Republican or Democratic politician, and the attitude of the Gazette should be maintained on general principles even if it be necessary to carry the matter into the courts and on to Washington.

That the postmaster rescinded his order, later on, is in his favor, but the fact remains that the Gazette was withheld from its subscribers twenty-four hours and discredited, through the actions of a thoughtless, incompetent or flimsy official.

## MRS. FRANK LESLIE.

Mrs. Willie Wild has changed her name back to Mrs. Frank Leslie and the change has started a great deal of gossip. One rumor states that Mrs. Leslie is paying Willie Wild \$25 per week for support, pending arrangements for a divorce or separation; another that she has changed her name owing to her husband's lack of reputation and will not be known as Mrs. Willie Wild until Willie has done something conspicuously great and thus accomplish fame for his name. A Philadelphia Press reporter, interviewing Mrs. Leslie in regard to the rumors, was told:

"I cannot imagine how the rumor originated, and indeed I presume it was through my having my name changed from Mrs. Willie Wild to Mrs. Frank Leslie. I changed my name to Mrs.

Frank Leslie because it was under that name that I won my spurs. When Mr. Wild has gained a name for himself, as great—as mine in this country, then I will take it, but not until then. Mr. Wild is a man whose attainments I highly respect, although his mode of life differs greatly from mine. I have opened every door for Mr. Wild to success in journalism or literature, but so far he has not entered. Mr. Wild is very much attached to the Lotus club and practically lives there. He meets me every afternoon to drive through the park. The only other reason I can assign for the report concerning the separation is the difference people may have noticed in our daily life. Now, for instance I breakfast at 9 o'clock and Mr. Wild at 2:30. In the evening we usually go out; last night it was to the theater, to-night a reception, this afternoon a luncheon."

It is probable that a little of the old time strength of mind returned to Mrs. Leslie when she discovered that she had married a dude who was pursuing a fading shadow to gain the more material substance after the shadow had long since disappeared. She ought to have known this before she married Willie, who is at least sufficiently tender years to have been the son of an older sister of Mrs. Leslie. Willie gained an ample fortune that will support him in a life of indolence while Mrs. Leslie has greatly tarnished the brilliancy of her own name and fame.

CONGRESSMAN KILGORE of Texas is opposed to Hill. Mr. Kilgore is the gentleman who kicked down a door during the last session of congress, and we are constrained to say to him, that kicking in a green baize door in the house of representatives does not necessarily carry with it the ability to kick with great effect against Mr. Hill. Let our Texas friend look over the ensanguined field and note what has happened to the nimble-heeled gentry in New York.

CONGRESS COSTS THE country about \$7,000 a day. And yet the great Democratic economist will consume days discussing plans for saving on soap, saddle blankets etc., for the West Point cadets. The spigot is to be plugged while the bung hole is left wide open.

EX-SPEAKER REED defines a statesman as "a successful politician—who is dead," and by way of a powerful confirmation in the converse, points out the indefatigable fact that David B. Hill is living.

The Arizona Sandstone company are shipping stone to Sacramento, Cal.

The new postoffice at that place will be built of Flagstaff stone.

Edward Scott, of Prescott, is under bonds to appear before the United States grand jury to answer certain charges formulated under the Edmunds act.

It is reported that the Atlantic & Pacific Railroad company will, during the summer, build depots at Holbrook, Winslow and Williams, and that they will be built of Flagstaff stone.

According to the Nogales Record a Mexican citizen was in the act of arresting a citizen of its town, near the international boundary line, when the citizen backed up against a door, when someone opened the door from the inside causing the citizen to fall across the line into the United States, much to the discomfort of the Mexican policeman.

## LOADED FOR GAME.

The Coal Creek Miners Parade the Streets with their Guns.

CHICAGO, March 2.—A Tribune special from Chattanooga, Tenn., says: James B. Hawkins, member of the legislature from this county, who was elected on the rebel platform, returned yesterday from Coal Creek. He talked with soldiers and miners alike and reports the condition very alarming. He said last night: "The situation is very serious. About one half of the miners go around all the time with shotguns and Winchester on their shoulders as if they were hunting squirrels. All carry pistols and make no secret of it. I have seen any time at night you can hear a volley being fired. I interviewed at least twenty of the business men of Coal Creek and Briceville in regard to the miners firing on Fort Anderson last Thursday night and at other times. They were unanimous in saying that they believed it was the militia doing the firing themselves. I also talked to some of the military officers. They claim that the camp was being fired upon and a detail was set out to arrest the parties shooting. The miners say that if any of their number is ever shot by the soldiers they will rally 3,000 men and make a charge upon Fort Anderson."

## THE LADY MANAGERS.

Mrs. Palmer Appoints Standing Committees on Classification.

CHICAGO, Ill., March 2.—Mrs. Potter Palmer yesterday announced the standing committee on classification of the board of lady managers of the world's fair. The formation of these committees which are to have control of the women's exhibits in the classes indicated is the most important work Mrs. Palmer has recently done. Although the board of lady managers has been organized more than eighteen months, Mrs. Palmer postponed the appointment of committees as long as possible in order to get the best results for those in charge of the work. Among those named is Mrs. F. L. Albright of New Mexico, department photographs.

## Blew Up a Saloon.

PERU, Ind., March 2.—A few months ago Jacob Barnhard, started a saloon at North Grove, in this county, in spite of vigorous protests of the people. This morning before daylight the saloon building was blown into thousands of pieces by a dynamite bomb, which had

been placed in the interior by the prohibitionists. The barkeeper, Philip Graft, was sleeping in the saloon, but miraculously escaped dangerous injury.

## UNCLE SAM COMPROMISED.

End of a Suit to Recover Damages From Alleged Timber Thieves.

SAN FRANCISCO, Mar. 2.—In the United States circuit court today J. W. Oates, of Santa Rosa, special counsel for the government in its suit against the Sierra Lumber company, asked that the case be dismissed, stating that he had received instructions from the attorney general at Washington to compromise the suits. Judge Hawley accordingly ordered the order of dismissal entered.

About eighteen months ago the government brought suit in the circuit court to recover \$2,217,000 from the Sierra Lumber company of San Francisco for timber cut on government lands in Tehama and Butte counties from October, 1875, to October, 1890. The jury awarded the government damages to the extent of \$41,000 and \$3,000 for the costs of the suit.

When the verdict was given Judge Sawyer said the damages were excessive, and that unless the government would agree to accept a compromise he would set aside the verdict. The compromise was effected today by the government accepting, it as stated, \$15,000.

## Dainty in Her Tastes.

The female wasp spends the winter in a torpid condition, and when spring arrives she hunts up some sort of sheltered spot appropriate for a nest. Having selected the retreat she proceeds to lay within it the foundation of a home. For this object earth will not serve her turn. The substance of which the walls and chambers of the house are to be composed must be none other than the finest paper, made of wood pulp, mixed with a sort of sizing, worked to a paste and finely spread in sheets.—Naturalist.

## How Thread Is Made.

To make a spool of thread the very best sea island cotton is used. This is taken in the raw state and torn to pieces by a machine called a breaker. It is then freed from its impurities by several other machines, after which it is taken up by a "slipper" and twisted into soft yarn. Several strands of this are twisted into one fine thread; three of these are then twisted together, making the six-cord thread, which, after being bleached, is ready to sell.—Philadelphia Ledger.

## Ropes in Belgium.

Hemp or aloes ropes, according to an official report to the French government, are almost exclusively used for all depths of shafts in Belgium. The makers guarantee the ropes to last one and a half to two and a half years, and should they fail earlier a twelfth to a twenty-fourth of their cost is deducted for every month short of their stipulated duration.

## A Lizard with Three Eyes.

Virginia, Maryland and North Carolina each have two species of lizard provided with three eyes. If you ask a native of either of the states mentioned about the three-eyed lizard he will laugh at you; that is, unless he is a naturalist and has given the subject some study. Scientists claim that they are quite common.—St. Louis Republic.

## Rather Tired of It.

St. Peter—Let me—see, miss, where are you?

New Arrival—I am from Boston.

St. Peter (glancing)—Ah, yes, I have heard of Boston.

New Arrival—Now, see here, if you say one word about beans I won't go in.—New York Weekly.

In countries where the aborigines worship the planets, preference is usually given the sun. The Hototocos of Brazil give the higher place to the moon deriving most of the phenomena of nature from it.

## "German Syrup"

Here is something from Mr. Frank A. Hale, proprietor of the De Witt House, Lewiston, and the Tontine Hotel, Brunswick, Me. Hotel men meet the world as it comes and goes and are not slow in sizing people and things up for what they are worth. He says that he has lost a father and several brothers and sisters from Pulmonary Consumption, and is himself frequently troubled with colds, and he Hereditary often coughs enough to make him sick at Consumption's stomach. Whenever he has taken a cold of this kind he uses Boschee's German Syrup, and it cures him every time. Here is a man who knows the full danger of lung troubles, and would therefore be most particular as to the medicine he used. What is his opinion? Listen! "I use nothing but Boschee's German Syrup, and have advised, I presume, more than a hundred different persons to take it. They agree with me that it is the best cough syrup in the market."
